Planting Season is here!

Gardening is a great way to introduce toddlers into planting seeds, watering the seedlings and watching them grow. Gardening is fun for older children to learn about how plants grow, how photosynthesis takes place and their importance for our climate. Plants also are a great basis for the science fair projects in our schools! For adults we can find gardening both creative and relaxing. For others, creating an attractive garden increases the curb appeal and value of your house.

You can easily grow many vegetables and flowers from seeds or cuttings. This will make your gardening not only more fun but also less expensive! The Masters Gardeners of Santa Clara website has many useful links to information about growing flowers, vegetables and herbs. The website has examples of common questions and posts helpful answers to them, there is also a Help desk for specific questions you may have. See mgsantaclara.ucanr.edu/. The Master Gardeners of Santa Clara posts a very useful table of when to plant vegetables by seed or as transplants by month. The link is mgsantaclara.ucanr.edu/garden-help/vegetables/vegetable-planting-chart/

Beautify Monta Loma Event on Sunday, April 27, 9:00-11:00 AM

A neighborhood garden tour follows at 11:00 am for those interested.

RSVP to Jennifer at jdellern@gmail.com if you plan to attend.

City Manager Kimbra McCarthy will be the guest speaker at our Annual Meeting

The Annual Meeting is confirmed for Wednesday, May 28. We are delighted to report that City Manager Kimbra McCarthy will be our guest speaker!

Those who attended last year's Annual Meeting will remember the very informative talks by then-Mayor Pat Showalter and City Manager Kimbra McCarthy. Mark your calendar for this annual evening gathering, hosted at a Google X conference room. Location details will be posted in the next newsletter, on the email list and montaloma.org.

Thank you to everyone who donated to Second Harvest during our 2024 Monta Loma Holiday fundraiser! **We raised \$2,130, enough to provide over 4,000 meals.**

With record-high inflation, surging gas prices, and ongoing housing challenges, Second Harvest is now serving about 500,000 people every month. Your generosity is making a real difference for our neighbors in Santa Clara and San Mateo counties, where 1 in 6 people rely on food assistance.

Thank you for helping support our community!

Neighborhood Bake Sale for Ukraine

By Neko Dang Holme

Hi, I am Neko Dang Holme, and I've lived in Monta Loma my whole life. I am currently in 4th grade at Tru School, a microscool in downtown Palo Alto. On February 23rd, we

hosted a bake sale, a fundraiser for Ukraine, at our house on Thaddeus Drive. The idea came from my schoolmate, Adeline, a second-grader. Six class families came to join us. We sold an assortment of different things ranging from games to fruit (donated by neighbors) to homemade baked goods. The biggest hit was the chocolate chip cookies with nuts. Some of the Ukraine-themed items were blue and yellow M&M snickerdoodles, Rice Krispies with blue and yellow frosting, and pins of the Ukraine flag made with Perler beads. Many neighbors came by and were very generous giving large tips and telling us to, "keep the change." We also got plenty of advice from customers, such as how to provide better customer service. Thank you to all the neighbors who contributed. I love living in this neighborhood.

Young coin collector gets help from neighbors on the group Share email

The 400+ members of the MLN group email list know that they can find almost anything they need by posting a request. Rajesh on Jane Lane posted the names of the 15 states that his son needed to complete his collection of state quarters. Within two days neighbors had offered all the desired coins, plus a quarter from the Territory of Guam.

Ronak is now inspired to begin a collection of quarters from the six U.S. territories.

MLN email list information and sign up form is at montaloma-post.org/.

Or go to montaloma.org/ and find the **MLN Email List** under the *Monta Loma* or the *Resources* menu.

Joan MacDonald recognized for her outstanding contributions

We are so proud that our neighbor Joan MacDonald was recently honored by Avenidas with its Lifetimes of Achievement Award. Her volunteer work spans decades and includes advocating for inclusive education and affordable housing, mentoring others in civic engagement, serving on both local school boards, and, here in Monta Loma, hosting garage sales for CHAC. Now in her 90s, Joan continues to volunteer.

All for now from the Car Gal

By Leane Reelfs

All good things come to an end, and after 23+ years of serving the community, Mike and I have retired and sold our business, Helming's Auto Repair. The buyer, Advanced Motor Works, will stay in our location on Wyandotte.

I loved that so many neighbors were loyal customers, and seeing those friendly faces really made my day. People brought us home-baked cookies, or pastries from The Midwife and the Baker, or just drove over to make their appointments because we were so close. I'll miss hearing how your kids and grandkids are doing, and what you are planting in your garden. Even though our dog, Stanley, didn't like your dog, I will miss seeing it. I will miss those connections.

We aren't going anywhere. We moved into Monta Loma in 1994 and love it here. This next phase of life will be full of honey-do lists, aging-parent caregiving, and mini vacations, and I'll embark on a new career in counseling. We are excited about the possibilities!

My final pro tip: Regular oil changes are the single most important thing you can do to extend the life of your vehicle.

See you in the neighborhood!

BIRDING IN MONTA LOMA

The Mourning Dove

By Dotty Calabrese

Ground feeders, birds that feed primarily on the ground, are plentiful in our Monta Loma Neighborhood. Look for them foraging for spilled seed underneath your seed feeder. Most common are the mourning doves, named for their mournful call, “who, whooo, whoo.” Close relative of the Rock Pigeon (our common pigeon) the 10 1/2” long Mourning Dove’s fat body is beige with darker wings, which make a startling sound when the Mourning Dove takes flight. Its small head is a pinkish beige/gray color. You might notice one or two short, black lines on its cheek. Its long, pointed tail has white-tipped outer feathers. Its bare legs and feet are pink. Unlike most birds, which swallow water by lifting their heads, all doves and pigeons suck water. Plentiful across the U.S. and southern Canada, Mourning Doves have adapted

well to living near humans, and are increasing in numbers. In 31 states, they are considered a game bird, and 30 million are taken every year! Once attracted to your yard, Mourning Doves will often nest in hanging planters, in plain view, beginning in February/March.

Email your bird questions to me at dottycala@aol.com.

The Importance of Landscaping

By Nirvana Nwokidu

We all have heard the saying “First impressions are everything” and that is true when you prepare to sell your home. It is just as important to be attentive to the exterior of your home as the interior, whether it be fresh paint, repaired fences, or an attractive front door or mailbox.

Good landscaping goes a long way in creating a welcoming look for potential buyers, and adds value to your property. You can create a welcoming vibe in a cost-effective way by adding vibrancy to your landscape with colorful seasonal annuals and perennials found in your local nursery. Incorporate native plants that thrive in our climate. This helps preserve biodiversity, and each small patch of habitat helps our collective effort to nurture and sustain our landscape for birds, pollinators, and all living creatures.

Try these simple tips to enhance your curb appeal: mow lawn regularly, prune shrubs and trees, pull weeds, rake up fallen leaves and debris, be imaginative with beds, add fixtures that create focal points, and see your landscape transformed into a beautiful property that can influence the worth of your home to the buyer, significantly add resale profitability, and boost homeowner sense of pride.

Foxtails menace our pets

Foxtails (see photos at tinyurl.com/fxtlmln) are proliferating in the neighborhood and are a hazard to pets and wildlife. Expensive surgery is required when the seeds embed themselves in tender places such as nose, ears, or paws. Please pull up the plants wherever you can and bag in compostable yard-waste bags. If you must mow, bag for disposal. If using plastic bags, place in the garbage bin.

Monta Loma Elementary - A time for reflection and gratitude

By Meghan Jinguji, Monta Loma Elementary Principal

With the second trimester behind us, we reflect on the progress we've made so far and look forward to finishing the school year strong. Our students have demonstrated significant academic growth. Thanks to the dedication of our school counselor, all our students have had the chance to learn and practice important social-emotional skills.

Our school thrives because of the incredible support from our PTA, SCEF (School and Community Engagement Facilitator), and staff. They have organized and hosted many enriching events, including the Used Book Sale, Lunch with a Loved One, Movie Night, Science of Reading Family Night, Lunar New Year festivities, and Family Dinner Nights. We look forward to more community-building events this trimester, including the Walk-a-Thon, Book Fair, and Art Show.

Finally, I'd like to express my gratitude to the community for your patience during the installation of the school fence. We anticipate the project will be completed by the end of March, and we appreciate your understanding throughout the process.
